DOCKET NUMBER
PROPOSED RULE PR 20
(64FR35090)

(697)

Dec. 26, 1999

'00 JAN -7 P5:24

Dear Secretary,

I am writing in regards to the recycling of radioactive materials into consumer products. I am appalled that such a process is occurring. Under no circumstances is any dose of radioactive material in consumer products acceptable. Radioactive waste should be properly disposed, not recycled.

It is my understanding that the NRC is in the process of setting standards for legal, large-scale recycling of radioactive waste materials. This is completely unacceptable. I strongly believe that exposure to radiation to be avoided, not increased and legalized through industry-backed rulemaking.

Sincerely,

Donna Frostholm
