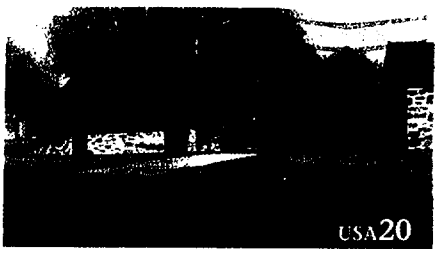
DOCKET NUMBER
PROPOSED RULE PR 20
(64FR35090)

JAN 27

Roy C Wilson
183 W 10th St Apt 4
New York NY 10014



SECRETARY
U.S. NUCLEAR REGULATORY
WASHINGTON, DC 20555
ATTN: RULEMAKING AND
ADJUDICATIONS STAFF

January 21, 2000

Dear Secretary,

Have our corporate masters gone mad? Are they so blinded by greed that they don't realize that they too will get sick and die young from recycled radioactive copper, steel, aluminum and concrete?

No radioactive dose is acceptable even with warning labels. We can only hope that the NRC summons the courage to go against orders and does not legalize the large scale release of these contaminated materials. Perhaps you and others on the NRC would lose your jobs but you would be heroes, saving the lives of many and your action would be honored and remembered.

THE WILSON FAMILY
