DOCKETED
USNRC
OFFICE OF SECRETARY

Dear Chairman Meserve:

I am writing to ask the Nuclear Regulatory Commission to isolate radioactive wastes and materials and anything they contaminate, no matter what land.

Using radioactive wastes in consumer products poses unnecessary, avoidable, involuntary risks. As a consumer and parent, I cannot accept these risks.

DS10

Please keep the legacy of atomic weapons and energy production complete,

PDR PR 20 64FR35090

isolated from the public and from our environment.

Sincerely,
Elsie Atlas
