Docket Nos.: 50-424
50-425

LCV-1424

U.S. Nuclear Regulatory Commission
ATTN: Document Control Desk
Washington, D.C. 20555-0001

Ladies and Gentlemen:

Vogtle Electric Generating Plant
Reformatted Physical Security Plan

Enclosed is a reformatted version of the Vogtle Electric Generating Plant Physical Security Plan (PSP) dated February 2000. This revision to the PSP is administrative in nature and only reflects minor changes due to its conversion to Microsoft Word ® text processing software; therefore, these changes do not decrease the effectiveness of the plan.

The text of the PSP has been changed to provide consistency in the following areas: font type, point size, spacing, page layout, page numbering, and revision control. Additionally, typographical errors in the form of misspelled words were corrected.

Southern Nuclear personnel have validated that no substantive changes have been made that would decrease the effectiveness of the PSP as a result of this revision. Furthermore, no changes have been made which impact existing regulatory commitments.

Therefore, the revision is purely administrative and does not change the intent of the PSP nor the procedures associated with meeting the requirements of 10 CFR 73. No routine or compensatory actions performed by the Vogtle Electric Generating Plant Security force as described in the PSP are deleted or changed as a result of this revision.

If you have any questions, please contact this office.
