ADD

Dear Secretary of the NRC Commission:

Back in December I sent you a letter urging you to support a couple of proposed rules to ensure the protection of the public and the environment against/from a nuclear power plant accident.

Again, let me reiterate my support for the proposed rule on establishing limits on employee working hours at nuclear power plants.

[redacted] I trust you'll do the right thing.

Peace — Mark K Bennett 513 K Street Davis, CA 95616
