Dear Mr. Meyer,

I am writing to express my opposition to sending spent nuclear waste to the Goshute Indian reservation at Skull Valley, Utah.

As a Utah resident I know there are already several other potentially hazardous pollutants here such as Mag Corp and the Chemical Weapons disposal at Tooele. We don't want any more in Utah.

The proposed nuclear waste storage is potentially even more damaging, not only to Utah, but to every state it must travel through to get here.

I know some of the Goshutes felt this was the only way to help their tribe but buying them off with this plan could be a disaster for the rest of the state for generations to come.

Please do whatever you can to put a stop to this situation.

ADM03

Sincerely,

Jackie Schelly
