Interview Thomas Frederick Huth DBW 1/15/99

Reactor Eng

Doesn't Recall Specific Meeting

But Atmosphere was low Because of potential lay offs & pressure to get up & running on time

Doesn't Recall ~~Statement~~ not to write PERS unless fuel load Related

Prior to 95 Movement to segregate & categorize problems

Atmosphere was to correct small problems on spot instead of writing PERS

pers were never not written ~~not~~ ~~to~~ to save money & get plant up & running

Was able to write a PERS

Would have Recalled such a ~~Statement~~
