Re Licensing and ending public participation in Reactor Licensing Hearings

Please enter these comments into the formal hearing record.

This rule is a threat to our democratic process regarding health and safety issues. The public should always be entitled to a full and meaningful public participation in a hearing process that provides for a complete record. The nuclear industry must be required to defend its proposals in formal on-the-record public hearings.

I urge you to advocate for an accountable energy policy that protects the public's democratic participation in NRC hearings on the risks and hazards
