From Henry L. Carter
Subject Notice of Violation
Report # 3-1999-021

I ackowledge the notice of violation.

THE REASON for The Violation

I Thought THE RADIOACTIVITY WAS from naturally occuring isotopes, That is what Radon Counters etc. ARE. I Thought I had cleared The Portal The last Time. I Thought H.P.s could clear Themselves. I now stand corrected.

The corrective steps That have been Taken: I always inquire at sites about This, Some Say H.P can clear Themselves, Some Say They can't.

Also whenever I alarm portals Twice I will notify H.P.s and follow Their instruction. No matter what.
