Comments: I am strictly opposed to the proposed storage of nuclear waste in the Skull Valley Goshute Indian Reservation. I believe even though it is on the reservation; the possible ramifications it poses warrants serious concerns for every person living in northern Utah.

According to local news reports, this proposal does not have the support of the members of the Goshute Indian Reservation in Skull Valley Utah; furthermore, this proposal affects far to many people outside of the reservation to be limited only to the approval of a few tribal leaders.

I am convinced that the Goshute tribal leaders have been enticed by the reality of gaining wealth for their financially poor tribe, and that this is the only basis for their decision.

As a citizen that would be affected by the decision to allow nuclear waste into Utah, I vote a strong NO.
