#2

Bob Wessman / Don Hassell - 2.790 - high "2" internal practices of commission can use as exemptions

Licensees need a legal basis to withhold certain parts of a doc.

FSARs, SER, some in EIS

NRR

case by case
amendments - outside of license renewal → no vulnerability info

Go thru info to assess:

Ease of information to be acquired by other means. (location, nearby industrial, military, etc) - Duplicative

Vulnerability → to what level? Terrorist act or widespread panic?

Objective - restrict internal info in NRC public documents which could facilitate an act of terrorism that would result in public fatalities (at what level?) (or significant off site consequences)
