Dear Mr. Holonich:

Enclosed for your information and retention are ten copies of the most recent Yucca Mountain Site Characterization Project Technical Data Catalog dated September 30, 1992. This document is updated and released quarterly in accordance with the U.S. Department of Energy/U.S. Nuclear Regulatory Commission (NRC) Site-Specific Procedural Agreement of 1984.

The catalog contains a listing of data collected in the course of characterizing Yucca Mountain, Nevada, as a potential site for a high-level radioactive waste repository. This version of the catalog contains information submitted to the project Automated Technical Data Tracking System since March 29, 1990. Information about data submitted to the project previous to that date will be added to the catalog as time and funding allow.

Should you have any questions or comments concerning this document, please contact either Ardyth M. Simmons at (702) 794-7998 or Sharon Skuchko of my office at (202) 586-4590.

Sincerely,
