RULEMAKINGS AND
ADJUDICATIONS STAFF

3126 N. 70th
Scottsdale AZ 85251
24 June 2003

Secretary
NRC
Washington DC 20555

Sirs:
I am writing in opposition to the deregulation of radioactive waste. NRC-licensed facilities must not be allowed to incinerate, 'release', 'reuse' or 'recycle' ANY nuclear waste — metal, concrete, soil, plastics, chemicals, etc.! I don't want radioactive waste in products that I buy!
Your only regulatory option is to strictly prohibit any deregulation. Radioactive waste must be isolated from humans and the environment.
Yours truly,
Katherine Baron
