Dear Sirs,

Who would be so Inept and insane, greedy and needy to give Reservation land for a nuclear Waste Dump.

I and my family pray you'll not allow this to happen.

Instead of Olymics, a feat much greater would be to have the integrity for our children to have a future & fight against the past mistakes of our government.

I'm begging you to not allow the head of the Goshute Indian Reservation to misuse his power and authority to make all his people and open the door to desease to the people of Utah.

Most Respectfully!
The Sharon Collard family
