RE: Upcoming meeting between Entergy and the NRC regarding dry cask spent fuel storage system at Indian Point

Mr. Miller -

I am wanting to request that the meeting at which officials from Entergy Nuclear Northeast will present to the U.S. NRC the details of their proposed dry cask storage system for the Indian Point nuclear power plant be held in Westchester County. Since this meeting is open to the public and would be the first opportunity for citizens and elected officials to obtain information about Entergy's proposal, the meeting should be held in the community that is host to the plant.

As this date has not yet been selected please accommodate me on this logical and reasonable request.

Thank you for your consideration,

Sincerely,
Marilyn G. Dunkelberger
