Dear Mr. McKinney:

This refers to Mr. H. L. Price's letter to you of December 21, 1959 concerning the discharge of water into Mosquito Creek as it relates to atomic energy installations.

I understand that an AEC representative has discussed this matter with you.

This is to inform you that this matter has been investigated and the results indicate that any discharges of radioactive material into Meeker Run, which flows into Mosquito Creek, by the Curtiss Wright Corp., Quehanna, Pennsylvania, the firm involved, is being done in accordance with Atomic Energy Commission regulations and does not present a hazard to public health and safety.

Sincerely,

Lawrence D. Low, Director
