SUBJECT: Questions re: license amendment

SUMMARY

I called Mr. Van Buren re: their license amendment to change RSO to Kevin Turner. I noted during the review that the licensee's name had changed and Mr. Van Buren clarified that it was recent name change associated with a change of ownership in 2003. The licensee properly notified the NRC in 2003 of the change of ownership and Mr. Van Buren provided info to document that this was a name change from that same transaction.

In addition, I called Mr. Smock who is the RSO of the Johnson & Johnson Spring House facility referred to in the amendment request (NRC Lic. 29-02608-03 - broad scope). I discussed Mr. Turner's training and experience with him. Mr. Smock confirmed that Mr. Turner has 10+ years as an assistant RSO handling packages, waste, training, surveys, etc. This experience in conjunction with his other radiation safety training (see Turner's CV) qualifies him to be the RSO of this limited scope program, as well as an authorized user.
