Subject: ICET Archival material for industry testing

Rob;

As discussed today, following is a proposed list of ICET material and quantities to be made available for industry testing and analysis uses. Please reply with your concurrence.

Thank you,

John Gisclon

Test Run No.	Archival Material	Total amount archived	Total amount to be made available to industry	Comments
1	Sludge formed as tank discharge cooled	~15 gallons	10 gallons	
1	Fiberglass insulation from submerged region of test tank	3.4 ft3	2.25 ft3	
1	Sediment	339 g (wet)	170 g (wet)	
2	Fiberglass insulation from submerged region of test tank	3.4 ft3	2.25 ft3	
2	End of run discharge fluid	250 gallons	170 gallons	
2	Sediment	302 g (wet)	150 g (wet)	
3	End of run discharge fluid	250 gallons	170 gallons	
3	Fiberglass insulation from submerged region of test tank	0.7 ft3	0.4 ft3	
3	Sediment, including cal sil, latent debris and reaction products	~20 gallons	12 gallons
