Dear Sirs/Madam,

I write in reference to page 1774 of The Federal Register. Vol. 71, # 7. Wed 1.11.06. I think your decision is flawed. I do not like your plan to conduct an experimental Power Ascension Test to see if the cracked steam dryer can handle more stress - while the plant is online. I agree w/ John Olver that this approach puts all of us living in the vicinity at risk.

Give us an Independent Saftey Assessment!

Counting on you, G. Nowakowski
