R. Barrett E. Thorn 10/20/99
G. Hulbard M. Rubin
G. Parry J. Hannon Mike Cheok G. Kelly
Art Rohn - GPU. - Be ready to go.

1. letter to Lynette asking for copy of Oyster Creek decomm. risk assessment. Seabrook
Gary to Lynette Ed Scherrer SCE wants to get this to us.

2. cc Ed,
Cite on public record from meeting
"valuable info" "plant-specific"
"highly reliable heat removal system"

2. Paul Blanch
criticality
deterministic sequences?
INEEL

Need good story
boraflex, fuel movement

FMEA?

3. list of "commitments" suggestions in back of
Lynette will send letter of what are commitments 10/30/99

4. Canavagn - We are way off on ignition temperatures.
1600°C.

Jerry Weisman

1) scenarios

2) how critical (how much power)

3) how long

4) consequences
