Question # 37: This number represents those pages that were reviewed by the NRC for declassification, as the Original Classifying Authority, as well as those that were reviewed for declassification and subsequently forwarded to the applicable Federal Agency that served as the document's Original Classification Authority.

Question # 39: During FY 06, our Information Security Branch conducted an agency-wide classification management review for the NRC trained 58 derivative classifiers housed in 13 different NRC offices. That agency-wide program review was counted as one (1) over arching inspection and included with the other three (3) inspections that were conducted in support of the NRC Information Security Program.
