Mr. J. Silverman
Group Leader, Chemical Research
Rocketdyne
Division of North American Aviation, Inc.
6633 Canoga Avenue
Canoga Park, California

Dear Mr. Silverman:

Reference is made to your application dated September 10, 1958, for the possession of a Strontium 90 sealed source for use in a hydrogen-carbon meter.

You state in your application that leak test arrangements have been made with Atomics International. We would like to know how the leak tests will be carried out, by whom, and the instrumentation which will be used.

You have not stated a waste disposal method. Since it may be necessary to dispose of the source at some time in the future, we would like to know what method you will use for such disposal.

Upon receipt of this information, we shall continue our review of your application.

Very truly yours,

Robert E. Brinkman
Senior Regional Licensing Reviewer
Isotopes Branch
Division of Licensing and Regulation
