6/22

QUAD OSRC SDP panel

Dean:

Jack: Application of SDP to this (QUAD) OSRC – last of old round

"New" OSRC essentially same as "Old"
New – means under new insp program – or 2nd round

Jesse Arildsen – QUAD "led" by HQs; subsequent will be "led" by Region
Distinction in who is responsible

Jack: Every other 1st round OSRC – if found problems, gave licensee time to fix, returned – took no other actions such as enf., or characterization of issues
– Only time we took enforcement was corrective action – i.e. failed to fix
Only result confirmed — Waterford + another plant arise from the Regional follow-up
Then enforcement changed – added some other examples
Back & forth – uncertain of result – Sounds like OGC changed

Questions: How many enforcement actions based on OSRCs?
Ans: None

However, have been enf. actions on drills
Farley + Waterford = level IV
