OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

Hello Secretary,

Yes, you are on the right track. Without public "participation" to liscense new reactors this puts us speeding towards totalitarianism.

No, we the people will NOT tolerate that. You will see more protesting and demonstrating than ever.

So go ahead exclude us. The wrath of the people will be brought out: just as sure as gravity of the sun is holding the planets in orbit.

Sincerely
Peter Fox Sipe
