IP2 Telecon w Licensee (pre pub mtg)

(1) drips out of tubes from hot & cold legs when filled to 1st ∇SP.
They think it was condensation.

R2C5 top of U-bend.

(2) Crack is segmented 2"–3" long. Max opening is 3/8".
Segments about 3/4"

(3) Will use bobbin & t-point for this area of this tube.

(4) Opinion is PWSCC

(5) R2C67 had similar indication plugged in SG 2/4 in '97.

(6) Can't see R2C5 crack in 1997 data.
