SUBJECT: RECEIPT OF APPLICATION FOR AMENDMENT OF CERTIFICATE OF COMPLIANCE NO. 9788 FOR THE S5G REACTOR COMPARTMENT AND "-96" DESIGNATION

Dear Mr. Angerhofer:

By letter dated January 3, 2008, you submitted an application for amendment of Certificate of Compliance No. 9788 to add the S5G reactor compartment as an authorized transportation package, and to include the "-96" designation in the Package Identification Number.

This letter acknowledges receipt of your application. The application appears to contain the necessary information to begin our technical review. We have established a schedule for this review. The schedule allows for the staff to issue a possible request for additional information (RAI) in May 2008. If no RAI is needed, and based on the staff's evaluation, the approval may be issued at approximately that time. In general, no additional changes to the application should be submitted except for those minor changes that result in responding to an RAI.

If you have any questions regarding this matter, please contact me at (301) 492-3326.

Sincerely,

/RA/
