RE: Energy Solutions Import License Application
5-11-08 IW023

Gentlemen:

My view on the above listed Import Application for foreign waste entering America is that it is not only against the people of this country and the constitution they created for themselves and we the inheritors but it is above all against the Law of the Almighty Creator which is written, "who ever pollutes the land, him will I (Elohim) destroy."

Sign your approval of this license application to pollute the land of America and the consequences stated above are on your own head.

It is my moral right and obligation to make this known to you.

An American, Servant and Child of Elohim
