Leadership Keys Gunsights

☐. Review owner distribution license for Gunsights

☐. Is a dry wipe test with liquid scint. Counting an adequate method for determing H-3 leakage from the sealed glass sources? (There are gas sources.)

☐. How are H-3 sources secured in secluded use Gunsight

☐. Reporting requirement
32.52

☐. MFG operational Data
Have units failed because of breakage or leakage after field use?

Handle with care

7 to 10% failure on mortar

H-3 as gas source.

Rifle sights

Handling — "user abuse"
TESTS — wire brush
drop.
