SUMMARY

1. Steve said their consultant did some wet wipes of their facility at 37716 Hills Tech Drive, Farmington Hills shortly before they ~~left~~ moved. They brought exhaust ducting with them to new facility. Consultant had been taking & analyzing wipes periodically though not required by license. Will get copy of latest results & forward with diag. showing where taken.
2. Provide date when moved from old facility & confirm all material moved to new facility
3. Confirm only had 1 C-14 sealed source which was never damaged
4. Confirm only had had one piece of depleted Ur. metal and it was coated to preclude contamination
5. Submit diag. of new facility with layout address Vol and air change frequency & confirm no residential quarters in it.
6. Ref. CN 95989.
Will FAX response by 2-14-94 followed by hard copy.
