Tom,

Upon reviewing the email that originally transmitted the U.S. ACE letter dated May 30, 2008, it appears that a standard "confidential" stamp was placed on the email transmittal. The letter was previously reviewed for proprietary information under 10 CFR 2.390 and was determined, prior to being sent, that the letter did not contain any proprietary information. As such, UniStar is not requesting withholding of information under 10 CFR 2.390 and apologize for the confusion that this electronic transmittal may have caused. This letter may be placed in the public domain.

I have asked our IT Department to investigate these "confidential" email stamps in order to eliminate confusion in future email transmittals. Thank you for your understanding.

Dear Ms. Perdue:

Your e-mail contained a notice that the e-mail and the attached letter dated May 30, 2008 from Unistar to the US Army Corps are confidential. Because the original letter was sent to an agency of the US Governmant, apparently without notice that it was confidential, it appears that the letter should be disclosed to the public.

Do you intend to request the NRC to withhold the e-mail and letter from public disclosure under the provisions of 10 CFR 2.390? If yes, please resubmit the letter following the procedures of 10 CFR 2.390(b). If not, please respond by e-mail that Unistar is not submitting the letter in confidence to the NRC.

Sincerely,

Thomas Fredrichs, Sr. Project Manager
