UNITED STATES OF AMERICA
NUCLEAR REGULATORY COMMISSION

BEFORE THE SECRETARY

In the Matter of Tennessee Valley Authority Combined License for Bellafonte Units 3 and 4 Dockets No. 52-014 and 52-015	))))))

DECLARATION OF Michèle Sneed

Under penalty of perjury, Michèle Sneed declares as follows:

1. My name is Michèle Sneed. I am a member of Blue Ridge Environmental Defense League.

2. I live at 514 Voekel Rd. My home lies within 35 miles of the site in Jackson County, Alabama, for which Tennessee Valley Authority has applied to the U.S. Nuclear Regulatory Commission ("NRC") for a Combined License for the construction and operation of two new nuclear power plants.

3. Based on historical experience with nuclear reactors to date, I believe that these facilities are inherently dangerous. Therefore, construction of one or more new nuclear reactors so close to my home could pose a grave risk to my health and safety. In particular, I am concerned that if an accident involving atmospheric release of radiological material were to occur, I could be killed or become very ill.

4. Therefore, I have authorized Blue Ridge Environmental Defense League to represent my interests in this proceeding by opposing the issuance of a Combined License to the Tennessee Valley Authority.

DECLARATION OF Affidavit of Standing

Under penalty of perjury, Julia Stubblebine declares as follows:

1. My name is Julia Stubblebine. I am a member of Blue Ridge Environmental Defense League.

2. I live at 1435 Tate Tr., Sewanee TN 37375. My home lies within 50 miles of the site in Jackson County, Alabama, for which Tennessee Valley Authority has applied to the U.S. Nuclear Regulatory Commission ("NRC") for a Combined License for the construction and operation of two new nuclear power plants.

3. Based on historical experience with nuclear reactors to date, I believe that these facilities are inherently dangerous. Therefore, construction of one or more new nuclear reactors so close to my home could pose a grave risk to my health and safety. In particular, I am concerned that if an accident involving atmospheric release of radiological material were to occur, I could be killed or become very ill.

DECLARATION OF John Kimmons

Under penalty of perjury, John Kimmons declares as follows:

1. My name is John Kimmons. I am a member of Southern Alliance for Clean Energy.

2. I live at 1233 Cartwright Loop, Whitwell, TN 37397. My home lies within 47 miles of the site in Jackson County, Alabama, for which Tennessee Valley Authority has applied to the U.S. Nuclear Regulatory Commission ("NRC") for a Combined License for the construction and operation of two new nuclear power plants.

3. Based on historical experience with nuclear reactors to date, I believe that these facilities are inherently dangerous. Therefore, construction of one or more new nuclear reactors so close to my home could pose a grave risk to my health and safety. In particular, I am concerned that if an accident involving atmospheric release of radiological material were to occur, I could be killed or become very ill.

4. I believe that the Plant Bellefonte COL application is inadequate as written and that my interests will not be adequately represented in this action without the opportunity of Petitioner to intervene as a party in the proceeding on my behalf.

5. Therefore, I have authorized Southern Alliance for Clean Energy to represent my interests in this proceeding by opposing the issuance of a Combined License to the Tennessee Valley Authority.

DECLARATION OF William Ross McCluney

Under penalty of perjury, William Ross McCluney declares as follows:

1. My name is William Ross McCluney. I am a member of the Southern Alliance for Clean Energy.

2. I live at 3517 Elderview Dr., Chattanooga, TN 37419 for approximately eight months of the year and at 219 Johnson Ave., Cape Canaveral, FL 32920 for approximately four months of the year. I am registered to vote in Florida and have a Florida driver's license but I own the home in Chattanooga where my wife and I reside and I pay state and county property taxes as well as sales taxes in Tennessee.

My Chattanooga home lies within 50 miles of the site in Jackson County, Alabama, owned by the Tennessee Valley Authority for which it has applied to the U.S. Nuclear Regulatory Commission ("NRC") for Combined Construction and Operations License for the construction of two new nuclear power plants.

3. Based on historical experience with nuclear reactors to date, I believe that these facilities are inherently dangerous. Therefore, construction two new nuclear reactors so close to my home could pose a grave risk to my health and safety. In particular, I am concerned that if an accident involving atmospheric release of radiological material were to occur, I could be killed or become very ill. I am also concerned about the threats of accidental releases of fuel and radioactive wastes during transport to and from the site and fear that these could also injure myself, my family, and my friends living and traveling in the areas affected. I am further convinced that this nuclear expansion plant is unnecessary. TVA's projections of future need are inflated above what can be expected, based on recent history and the real possibility of energy efficiency, energy conservation, and use of renewable energy sources more than displacing any projected increase in electricity demand in the TVA service territory. In consequence, I object to TVA's planned nuclear expansion in the vicinity of my home and elsewhere.

4. Therefore, I have authorized Southern Alliance for Clean Energy to represent my interests in this proceeding by opposing the issuance of a Combined Construction and Operations License to the Tennessee Valley Authority.

DECLARATION OF JACKIE TIPPER

Under penalty of perjury, Jackie Tipper declares as follows:

1. My name is Jackie Tipper. I am a member of Southern Alliance for Clean Energy.

2. I live at 1295 County Road 415, Town Creek, AL 35672. My home lies within 84 miles of the site in Jackson County, Alabama, for which Tennessee Valley Authority has applied to the U.S. Nuclear Regulatory Commission ("NRC") for a Combined License for the construction and operation of two new nuclear power plants.

3. Based on historical experience with nuclear reactors to date, I believe that these facilities are inherently dangerous. My home is located on the Tennessee River, downstream of the Bellefonte site. Therefore, construction and operation of one or more new nuclear reactors could pose a grave risk to my health and safety. My family and I spend many hours recreating in and by the Tennessee River. I am concerned that the increase in hazardous material, and the increased cumulative impacts, in the Tennessee River caused by one or more nuclear reactors at Plant Bellefonte will impact my and my family's recreational enjoyment of the Tennessee River.

4. I believe that the Plant Bellefonte COL application is inadequate as written and that my interests will not be adequately represented in this action without the opportunity of Petitioner to intervene as a party in the proceeding on my behalf.

5. Therefore, I have authorized Southern Alliance for Clean Energy to represent my interests in this proceeding by opposing the issuance of a Combined License to the Tennessee Valley Authority.
