Dear Mr. Oberman:

In response to your letter of February 21, 1961 addressed to the Division of Reactor Development I am enclosing herewith a copy of proposed site criteria guides developed by the A.E.C. for guidance in preliminary evaluation of sites for nuclear reactors. Public comment on these guides was requested by publication in the Federal Register on February 11, 1961. It is believed that the information in the enclosure will provide a basis for answering the questions raised in your letter. However, if there are further questions, we will endeavor to answer them.

We would be pleased to receive any comments which you might have on the proposed guides.

Sincerely,
