I do! Thanks John. I'll await the schedule.

Deann,

I cannot talk about the critical path until the schedule is final.

However stepping back a bit, you certainly know that all the COLAs depend on the DC.

John

Thanks! One more question -- if you were to pick the critical path items, what would they be? I noticed seismology and the dewatering plan highlighted in the last letters. Anything else come up that the NRC considers crucial to staying on schedule? Thanks!

Deann,

We are finalizing the schedule and could have it published on the public website as early as next week.

John Rycyna

Hi John,

Has the NRC projected an FSER target date yet? I noticed on the website that field was blank and a June 30 letter didn't include it either. Has the NRC developed the schedule yet?

Thanks so much!

Regards,

Deann
