Subject: RE: Intervene in NRC license?

Dear Mr Johnston,

Thank you for getting in touch with the NRC. I am copying John Rycyna, the lead project manager for the license review of the Calvert Cliffs combined license application for a new reactor. There will be instructions published in the Federal Register on how and when you will be provided an opportunity to intervene in this process. John can add you to the ditribution list for these instructions.

Here are some links that may be useful:

Hearings: http://www.nrc.gov/about-nrc/regulatory/adjudicatory/hearing-license-applications.html

Public involvement: http://www.nrc.gov/reactors/new-licensing/public-involvement.html

The NRC is committed to maintaining our processes as clear and open as possible. Please don't hesitate to contact us with any question about our processes.

Thank you.

Larry

Subject: Intervene in NRC license?

Mr. Burkhart,

I got your email link off the NRC site http://www.nrc.gov/about-nrc/regulatory/adjudicatory/hearing-license-applications.html

I may wish to intervene in Unistar's application for a third reactor at Calvert Cliffs. When is the deadline for submitting the request to intervene, and where and how should I file it?

Thank you,

William Johnston,
Calvert County resident
