Tami – Thanks for the revised schedule. Once you have a set time that works for all on your end for Need for Power, just let me know I can quickly confirm if it works on our end.

Thanks!
Amy

Subject: Development of the Grand Gulf Site Audit Schedule

Amy:

Attached is an updated site audit draft schedule that indicates which NRC staff will not be available on Thursday at the audit due to the activities in Port Gibson that day. Basically the only PNNL staff who will be missing from the Thursday audit is Darby, the team lead.

I will be contacting Dan Mussatti and Darby/Terry will be touching base with Tom Secrest to make certain that scheduling the Need for Power discussions on Wednesday will work for them. As far as scheduling a session on the transmission corridor, Paul Michalak will probably be taking the lead on that since these discussions are obviously going to involve the multiple entities that he has been working with.

I will touch base again soon.

Thanks.
Tami
