Dr. Shirley Ann Jackson- Watts Bar

I am writing you to ask you to not issue a Full Operating License to the Watts Bar Nuclear Plant and to ask you to Revoke the low energy operating license. With other alternative ways to get energy there is no reason for a nuclear plant. They have a history of safety problems and there is no safe way to deal with nuclear waste. I am 15 years old and I am part of the future of this country. I would like to inherit the healthiest world possible and not have to worry about previous generations' mistakes.

Sincerely,
Leah Hanzlicek
