Attachments: Dom Hydrology Safety Audit model inputs

Gina,

When we conducted a site hydrology safety audit at Bechtel offices on April 10-11, 2008, staff requested input files to aid in verifying hydrology related calculations. Those files were subsequently submitted to staff on CD-ROM in June (see attached).

Please submit a letter to us, similar to the document referenced below (ML082390124), confirming what was submitted to the NRC, to ensure that we have the transmittal of this information on file and on the docket.

Let me know if you have any questions.

Best Regards

Andrea M. Johnson
