Tennessee Valley Authority	)	

NUCLEAR REGULATORY COMMISSION (NRC) – BELLEFONTE NUCLEAR PLANT (BLN) – AP1000 COMBINED LICENSE APPLICATION DEPARTURE REPORT UPDATE

Reference:

> Letter from Ashok Bhatnagar (TVA) to Mr. R. William Borchardt (NRC), Application for Combined License for BLN Units 3 and 4, dated October 30, 2007.

The purpose of this letter is to update the Bellefonte Nuclear Plant (BLN) report describing plant-specific departures from the AP1000 Design Control Document (i.e., Departures Report) as required by 10 CFR Part 52, Appendix D, Paragraphs X.B.1 and X.B.3.b.

TVA submitted a combined license (COL) application for two AP1000 advanced passive pressurized water reactors at BLN in the referenced letter. Part 7 of the BLN COL application is the BLN Departures Report.

No additions, deletions, or changes to the BLN Departures Report have been identified during the most recent six-month reporting period.

If there are any questions regarding this application, please contact Phillip Ray at 1101 Market Street, LP 5A, Chattanooga, Tennessee 37402-2801, by telephone at (423) 751-7030, or via email at pmray@tva.gov.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on this 30th day of April, 2008.

Andrea L. Sterdis
Manager, New Nuclear Generation Licensing,
Nuclear Generation Development & Construction
