Subject: TVA/BLN reading room inventory

Andrea and Phil,

Per Chris' request below please make arrangements to provide us an inventory list when new information is available in the Rockville and Richland reading rooms. The list should contain a brief description of the new information. You can provide the list via email, recognizing that it will be captured in the hearing file. I believe email is the most efficient because this information has to be shared with multiple parties on our end.

Joe Sebrosky

Subject: request: TVA/BLN reading room inventory

Joe,
In order to avoid situations like this morning, please request that TVA that notice us whenever new hydrology-related information is placed into either the Rockville or Richland reading rooms. The notice should contain a brief description of the new information.

Notices should be sent for all deliveries throughout the project - not just for the first data installment into the Richland room.

Thanks,
Chris
