Professional Engineering Consultants, P.A.
ATTN: Alan D. Ward
Radiation Safety Officer
303 South Topeka
Wichita, KS 67202

SUBJECT: INITIAL NRC FORM 241 FOR CALENDAR YEAR 2003

Mr. Ward:

This acknowledges receipt of your initial NRC Form 241 dated December 18, 2002, and the $1400 application fee, submitted to the NRC Region IV office to report proposed activities in NRC jurisdiction under the authority of the general license pursuant to 10 CFR 150.20.

Your Agreement State license is recognized as valid for the proposed use of licensed material at the locations listed on your NRC Form 241, and attachments, if any. Please be aware that working under reciprocity in NRC jurisdiction requires you to comply with NRC regulations, as described in 10 CFR 150.20. Please note, that your Agreement State license is due to expire on July 31, 2003. In order to continue work activities under reciprocity, you will need to provide to this office, either (1) a copy of your updated Radioactive Materials License, or (2) a copy of a deemed timely letter from your Agreement State office.

The calendar year 2003 RTS Reference numbers for your proposed locations of work will be assigned when you submit your NRC Form 241 clarifications for the specific dates and locations of work for your clients. Once assigned, please refer to the appropriate RTS Reference number in any future communications.

You must submit an NRC Form 241 clarification report when you propose to add locations of work, add or delete dates of work, change work site contacts, use different radioactive materials, or elect to perform additional work activities within NRC jurisdiction, and subsequently provide those changes to this office. Please note, all notifications or clarifications of work activities or changes to the information submitted on the initial NRC Form 241 must include as a minimum, the following information: licensee name, agreement state license number, location of work, dates of work, and the signature of the RSO or designee.

Information submitted on NRC Form 241 must be specific regarding the location and dates of use. Since your reciprocity request is for various locations over an extended period of time, you are required to notify this office three days prior to each of the proposed generally licensed

activities. However, given the nature of your licensed activities, the time requirement specified in 10 CFR 150.20(b)(1) for filing an NRC Form 241 clarification report and any subsequent notifications has been waived, provided that you:

A. Inform this office by telephone or facsimile of work activities or changes to the information submitted on the initial NRC Form 241, and

B. Receive oral or written authorization for the activities from this office, and

C. Submit written confirmation and the check for the fee payment, if applicable, within 3 days after the notification.

Enclosed is an NRC signature copy of your NRC Form 241. We appreciate your cooperation. If you have questions concerning this letter or other aspects of working in NRC jurisdiction under reciprocity, please contact me at 817-276-6552.

Please use one of the following FAX numbers for submitting NRC Form 241 clarifications.
817-860-8263
817-860-8188

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter, its enclosure, and your response, if you provide one, will be made available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at http://www.nrc.gov/reading-rm/adams.html (the Public Electronic Reading Room).

Sincerely,

/RA/

Rachel S. Browder, Health Physicist
Nuclear Materials Licensing Branch

Enclosure: As stated
