MR. MICHAEL LESAR

THANK YOU FOR YOUR TIME,

I am writing you to ask you extend the period for comments and hearings on the LES Plan to build a nuclear fuel processing plant in Trousdale County, TN.
Please don't allow LES to limit public comment or participation in any way.
The local citizens here are against the Plant and were not advised of their plans until just recently.
Please allow us to conduct hearings & comment periods

Thank you again for your time & consideration on behalf of our children and grand children.

Yours truly

Christopher M Johnson
