Project Master List of Controlled Documents

Enclosed for your information and use is the NNWSI Project Master List of Controlled Documents, identifying the versions current as of October 19, 1988. This listing of document status should be used to verify that documents held for use are current and that out-of-date material is not used for the conduct of Project work.

Copies of revisions to these documents are forwarded to controlled document holders so that the controlled sets can be maintained current. If deficiencies in the maintenance of controlled copies of these documents are identified, additional copies may be obtained by forwarding deficiency listings to:
