WM DOCKET CONTROL CENTER

3-30-1984

Memorandum For: Robert E. Browning, Director
Division of Waste Management

'84 APR -3 A10:21

From: Paul T. Prestholt, Sr. OLR - NNWSI

Subject: NNWSI Site Report for Week of March 26, 1984

1. The NNWSI TPO meeting was held this week in La Jolla, Ca. (the offices of SAI). One important topic to be discussed was the dates and agendas of future workshops and data review meetings between NNWSI members and the NRC. I received a call on thursday morning from Dr. Atef Elzeftawy at which time Dr. Elzeftawy stated that he had heard from Dr. Vieth and that the April 9 hydrology data review meeting (USGS-Denver) was cancelled.

I visited the SAI office in Las Vegas and spoke with Mike Glora, who had attended the TPO meeting in La Jolla on monday. Glora said that Dr. Vieth had strongly pressed the idea of cooperation with the NRC. The dates for future meetings with the NRC was left as an open item.

Apparently a meeting concerning future workshops was held wednesday evening. A proposal was developed suggesting that a draft NNWSI EA be given to the NRC the first part of June and workshops held

specifically on the EA. I have not confirmed this with Dr. Vieth. Seth Coplan was scheduled to have talked with Dr. Vieth on friday morning (the 30th) but I have heard nothing.

2. The part time secretarial position for the Las Vegas office was advertised in the Sunday March 25th Las Vegas Review-Journal.

3. The permanent NRC Las Vegas office will be ready for occupancy April 2. Telephones will be installed April 3. Furniture was shipped from D.C. on March 27th. The IBM P.C. was delivered the 26th without supplies. It has been set up and everything seems to work. The telephone answering machines are, for some reason, still stalled in D.C. (NRC). Everything seems to be going smoothly.

Paul Priesthoet
