JUL 31 1984

Mr. David R. Buss
GeoTrans, Inc.
209 Elden St.
Suite 301
Herndon, VA 22070

Dear Mr. Buss:

I have reviewed your monthly progress report for June 1984 dated July 12, 1984. This report describes the status of GeoTrans Technical Assistance under Contract No. NRC-02-82-047. Progress made to date under this contract is satisfactory.

I have received the completed graphic logs submitted with your letter of July 18, 1984 and find them acceptable. I notice that for well UE25b-1h the "production zones" from the flow survey were available for inclusion on the graphic log. Based on our recent data review in Denver, I think this is an important piece of data which should be given priority for inclusion on graphic logs.

I want to commend you on an excellant job in preparing the tables of test hole data and completed graphic logs. Our inventory and graphic presentation of the data base exceeds that available to the USGS who has collected the data.

Based on our latest information from DOE you should expect the Environmental Assessment to be submitted for review in Mid-September. I will notify you if there are future changes to the schedule.

The action taken by this letter is considered to be within the scope of the current contract NRC-02-82-047. No changes to costs or delivery of contracted services and products are authorized. Please notify me immediately if you believe that this letter would result in changes to cost or delivery of contracted products.

Sincerely,

/s/

Jeffrey A. Pohle, Project Officer
Geotechnical Branch
Division of Waste Management, NMSS
