* rule & reg. guide being discussed now

* substituting for something that has an assumed reliability.

- manual actions = 4th option.

(**) manual actions solely, or in combination w/ suppression & detection?

* Appendix R - doesn't allow for manual actions, plain & simple

= # of "speeches" made re: feasibility re: perf. manual actions.
Hannon, Weiss

* inspection guidance - refining & easing by our inspectors.

* What = ℓ of failure of actions? Conseqs of failure.

- cumulative effect of manual actions
- minimum time to take action.

Dave & Steve W. = directing how & what form relationship will take.

( * risk basis to support criterion - what = desired. )

D/45

* schedule depends on acceptance of SRM - draft rule -

(TRAVEL AUTHORIZATION)

6 mos. after SRM approval

* modelling human behavior -

- FT Calhoun also

* demonstrations ??

(more objective criteria for rule making)

(no risk-information -) - HESITATION TO QUANTIFY THESE ACTIONS

per Gauth P.

| | |
|---|---|
| 1 | embellish criteria - ? |
| 2 | demonstrate acceptability / What constitutes "acceptable" performance? |
| 3 | modelling? |

[ performance-based CRITERIA ] → RES assistance.

(2 YR period)

licensee must req'd

1 FTE ≈ 1975 Ars

(3 FTE = 3 yrs)

→ develop U.N. -

* research the topic -
* develop draft guidance -
* Conduct some set trial w/ draft guidance

⇒ go to D. Dici - start U.N. - to res. to develop guidance.
(we don't have "tasking to do this)

∴ 1.5 FTE (staff)

• What = "family" of manual actions?
• task analysis
