Mr. Adam Scheinman, Director
Office of Export Control Policy and Cooperation
National Nuclear Security Administration
U.S. Department of Energy
1000 Independence Avenue, S.W.
Washington, DC 20585

Dear Mr. Scheinman:

Enclosed is an application for a license (XSOU8798), recently received by the U.S. Nuclear Regulatory Commission, for the export of 4,500,000.0 kilograms of natural uranium as uranium ore concentrate (U308) to Canada for conversion into UF6 and return to the U.S. for further processing and ultimate use in nuclear power reactors. Canadian assurances are required that the material will be subject to all of the terms and conditions of the U.S.-Canada Agreement for Cooperation. Your assistance in obtaining the necessary assurances from Canada will be appreciated. Please note that most of the material is of U.S. origin, although it is possible that one of the parties to the proposed export, International Uranium Corporation may ship Canadian origin material (i.e., rock of Canadian origin to the U.S. and then re-exported to Canada).

Sincerely,

/RA/

Edward T. Baker, Deputy Director
Office of International Programs

Enclosure: Appl. Dtd. 10/10/03
XSOU8798 - Canada
Docket Number 11005445
