Dr. Robert J. Wright
Repository Projects Branch
Division of Waste Management
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Dr. Wright:

ADVANCE SECOND ISSUE OF DRAFT ENVIRONMENTAL ASSESSMENT REFERENCES

Enclosed for your use is an advance secondary issue of an additional 49 references to the Basalt Waste Isolation Project Draft Environmental Assessment (EA). This transmittal includes the entire list of references based on the August 3, 1984, draft of the EA along with the microfiche slides for 49 references. The references whose slides have been included in this package are indicated on the index by a number "(2)" in the left-hand margin.

The enclosed index indicates both the slides sent in the first transmittal ("(1)" in the left-hand margin) and the slides sent in the second transmittal ("(2)" in the left-hand margin).

We would caution that while the references contained in this transmittal are similar to those in reference to the final draft, the contents should not be construed to necessarily represent a final or inclusive set.

We trust that this package of references along with those to follow, will serve to enhance your preparation for review of the public comment draft EA when it becomes available.

Very truly yours,

O. L. Olson

O. L. Olson, Project Manager
