Study *of* Potential Sites *for the* Deployment *of* New Nuclear Power Plants *in the* United States

The work reflected in this document represents Dominion's and Bechtel's best judgment as recognized companies familiar with the engineering, construction, and operation of nuclear power plants. Nevertheless, since the work has been based on preliminary design information only, evaluations contained in this document should be considered preliminary in nature, and are not intended to be the basis of final financial and other management decisions. The information on which these evaluations have been based was provided to Dominion and Bechtel by DOE and third parties, and, except where specifically stated otherwise, has not been independently verified. Accordingly, neither Dominion, Bechtel, nor anyone acting on their behalf makes any warranty, express or implied, as to the accuracy or completeness of the information or conclusions contained in this document or assumes any liability for damages resulting from the use of or reliance on such information or conclusions.
