Dear Mr Miller -

If you want to hold a public meeting to hear the views of citizens regarding onsite storage of so-called "spent" nuclear wastes in dry casks, why not do it in affected communities? How about Peekskill New York? We have to live-with it, after all. Let the Entergy suits try to justify it to their neighbors, don't make us drive to King of Prussia to discuss a matter of some local import.

Thank you
