LS&SIE: [illegible] February 11, 1959

Mr. Jerome Consiglio
Hartford Area Office
U. S. Atomic Energy Commission
P. O. Box 1102
Middletown, Connecticut

Subject: BYPRODUCT MATERIAL LICENSED POSITION OF CANEL AND FOX PROJECT

Dear Mr. Consiglio:

This is to confirm our telephone conversation on February 9, 1959, that the government owned CANEL Project, located at Middletown, Connecticut and operated for the Commission by Pratt & Whitney, Division of United Aircraft Corporation, is exempt from byproduct material licensing requirements in accordance with provisions of Section 30.6 of Title 10, Code of Federal Regulations, Part 30.

In light of the above, License No. 6-2943-2 which will expire on May 31, 1959, and License No. 6-2943-3 which will expire on October 31, 1959, have been cancelled by amendments sent to the licensee. No other valid licenses exist or will be issued to CANEL so long as the Atomic Energy Commission has control over this facility.

We wish to inform you that the Fox Project located at East Hartford, Connecticut and operated by Pratt & Whitney had been covered by License No. 6-550-2 which expired on May 31, 1958, and License No. 6-550-3 which expired on July 31, 1958. Since all work with radioisotopes which had been performed at Fox was transferred to the licensee exempt CANEL Project in May 1957, renewal of these licenses

TO ACTION
INS

was not necessary. Mr. E. L. Davis, Assistant Secretary of Pratt & Whitney was advised of this by us.

Very truly yours,

Joseph E. Fasano, Chief
Isotopes Branch
Division of Licensing and Regulation
